## About AIMS:

Maharashtra Cosmopolitan Education Society's Allana Institute of Management Sciences (AIMS) at Azam campus, Camp, Pune was established in the year 1998. The Institute has approval of Government of Maharashtra, All India Council for Technical Education (AICTE) New Delhi, and is affiliated to the University of Pune. It is situated in the heart of Pune Cantonment area.

Under the umbrella of MCE Society, the prime goal of AIMS is to produce professionals in the area of Information Technology and Business; to equip the young generation in order to enable them to solve the technical and business issues emerging out of global environment. We continuously seek opportunities for improvement, to meet and exceed the needs of our students through a process of self-evaluation and continuous improvement. At AIMS, we are committed to qualitative education to eligible persons, thus creating human assets and enhancing intellectual capital. Our Technical and Managerial training provides self-dependability, innovativeness, sociability, sensitivity and adherence to excellence.

To achieve these objectives the institute has developed state of the art, well-equipped modern Computer Laboratories, Internet, Intranet, Wi-Fi connectivity, Spacious Conference halls, E-library, Seminar Halls and ICT enabled facilities. The Institute offers full time Postgraduate courses viz. Masters in Computer Application (MCA), Masters in Business Administration (MBA) and Masters in Computer Management (MCM).

## About Mobile Computing Workshop:

Today Mobile phones have become integral part of Personal and business life. As per TRAI (Telecom Regulatory Authority of India) figures as on April 6, 2011, there were 791.38 million mobile phone subscribers in India. India is likely to become World's Number 1 Mobile Market by 2013 with more than a billion Mobile Users.

The job opportunities in this stream are not restricted to the manufacturing, repairing and maintenance of mobile handsets but there is lot of career options in mobile application development for software professional. The career in mobile and wireless workforce is very demanding now days. Growing use of wireless devices such as smart phones, notebooks, cell phones and laptops has generated motivation as well as competition to ensure these tools function effectively and securely.

The career options in the wireless and mobile technologies include

- ◇ Mobile Phone System Engineer
- ◇ Mobile Applications Developer (Android, Blackberry, iPhone, Windows etc)
- ◇ Mobile Applications Testing Specialist
- ◇ Game Developer and many more such options exist.

## Objective of Mobile Computing Workshop:

- ◇ To make the students industry ready in developing mobile applications
- ◇ To develop skills of students in Android application development
- ◇ To train participants in use of Eclipse as IDE

## Program Highlights:

- ◇ A series of tutorials with adequate hands on technologies like eclipse, android etc.
- ◇ Experts from industry and academics will guide the participants.
- ◇ Participants will be provided with Book on Mobile computing

**Resource Persons:**

- ◇ **Mr. Shivkumar Birajdar**  
Siemens India
